It is not a travel insurance policy.

The School will treat the information requested on the student health information sheet as confidential. The information is sought in order to protect and assist the student so that the activities may be safe and enjoyable.

The Rockhampton Grammar School

Letter to Parents

Dear Parent / Guardian

The Rockhampton Grammar School is officially starting a Robotics Club and this will begin in Term 3. Robotics opens the door to experiment, innovate and analyse while having fun. Technology is a significant part of society and the Digital Technologies Curriculum coming through also supports the use of Robotics in the classroom as an important pathway to give students exposure to the required skills needed in their possible employment options.

The equipment that will be used is the LEGO EV3's. The software that is needed for this is called LEGO Mindstorm. Students are able to access this software now through the School's Software Centre. It is recommended that student download this software onto their tablets now and use the following tutorial website to begin learning the code needed to program the LEGO EV3's
